### FIFTEEN HUNDRED LOTS IN TWO YEARS

People in All Parts of the United States Buy Property in Las Cruces.

Las Cruces, N. M., Dec. 30.—The records at the office of the probate clerk of Dona Ana county show that there have been more than 1500 lots sold in the various additions to the town of Las Cruces during the past two years. The purchasers of these lots live in nearly every state in the United States. Only a few of the purchasers have moved to the valley, but communications from others indicate that they intend to move to Las Cruces as soon as the real work starts upon the Elephant Butte dam. In Pueblo, Colorado, alone, there have been over 100 lots sold, while the smaller towns in Texas have contributed over 100, also. Inquiries as to farming land are beginning to come in every day and the real estate dealers of the valley are looking forward to a large number of sales during the next three months.

**UPRISING OF NATIVES ON PACIFIC ISLANDS**  
People on Caroline Island in Arms—German Cruiser to Put Down Ponape Insurrection.

Tsing Tao, China, Dec. 30.—The German cruiser Emden sailed today for Ponape, Caroline Island, where it is reported, an insurrection has occurred.

**Insurrection Confirmed.**  
Berlin, Germany, Dec. 30.—The colonial office has received a message from the German governor of the Caroline Islands, reporting his arrival at Ponape with 100 soldiers.

He states that the insurgents do not exceed 250 and the natives generally are loyal.

The cruiser Nuremberg was ordered to proceed from Hong Kong to Ponape. The cruiser Cormoran and the surveying ship Planet are already there while the cruiser Emden is en route to the scene from Tsing Tao.

A dispatch from Brisbane, Australia, last night, stated the natives in Ponape had revolted and murdered four Europeans and five friendly natives. The Caroline Islands, together with the Western Carolinas, were sold by Spain to Germany in 1899.

They form a large archipelago, some 680 small islands in 48 groups in the Pacific ocean, latitude about five degrees to 10 degrees north, longitude 155 degrees to 165 degrees east. The most important islands are Yap and Ponape. Cipra is the chief export town. There are a number of trading stations on the islands, the area of which is 350 square miles.

The population is about 40,000. A series of native outbreaks that began in the winter of 1908 ceased in the following April when the local authorities succeeded in restoring order with the assistance of the German gunboat Jaguar.

The disturbances at that time were due to a religious warfare. The Protestant natives were arrayed against the Catholics. Each camp possessed about 800 rifles.

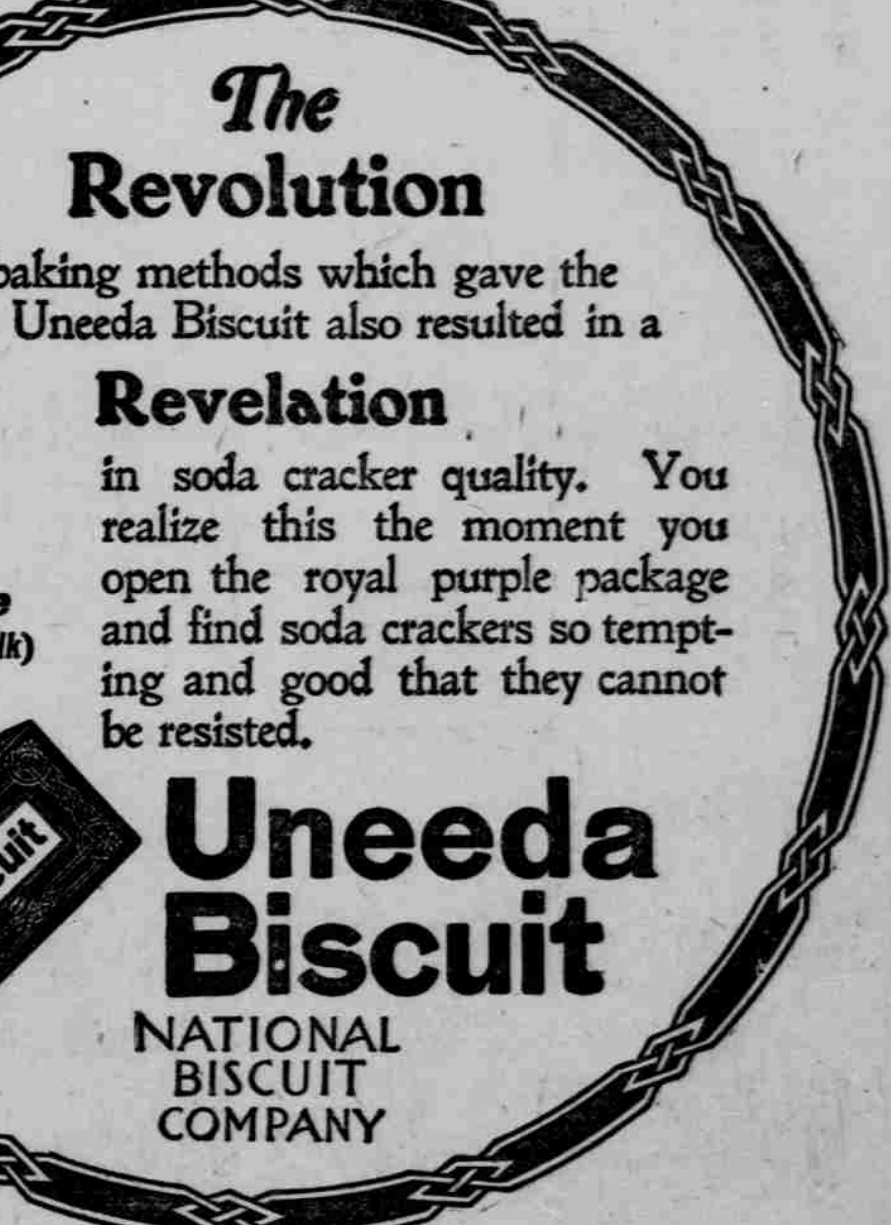

**MURDERERS TO JOIN THE MADERISTA FORCES**  
Two Italians Flee From Arizona to Mexico.

Mexico City, Mex., Dec. 30.—Two Italians, murderers of two miners in Bisbee, Ariz., have fled to Mexico for the avowed purpose of joining the Maderista revolutionists, according to a letter received at the American consulate here yesterday. The letter is signed by John P. White, sheriff of Cochise county, Ariz., and offers a reward of \$1000, gold, for the arrest and conviction of the men, conviction being sure if once arrested, according to the letter.

The men, Pete Ravaglia and Batisto Marinoni, the night of Dec. 13, stabbed to death Parker Bawling and D. H. Faulk and seriously wounded Ernest Duber, all American miners.

Immediately following their attack, the two Italians fled to Mexico, stating to friends that they were going to join the Maderista forces. They were heavily armed and are dangerous men.

### ANTONIO RODRIGUEZ ALIVE IN JALISCO

Mexican Burned at Rock Springs Not Rodriguez of Guadalajara.

Guadalajara, Mexico, Dec. 30.—Antonio Rodriguez, supposed to have been burned at the stake at Rock Springs, Texas, is in Guadalajara, hale and hearty. Dispatches from Rock Springs at the time of the lynching made reasonably certain the identity of the man as the resident of this city and, as an aftermath to the killing, anti-American demonstrations in Mexico were started.

Rodriguez was arrested here several days ago on suspicion that he was an agent of the revolutionary leader Madero. His identity was established yesterday and he was released.

Rock Springs, Texas, Dec. 30.—The man lynched here on November 5 for the murder of a cattleman's wife was known as Antonio Rodriguez and it was said he came to the United States from Mexico.

Mexican newspapers at once found that an Antonio Rodriguez had lived at Guadalajara and, without further investigation, declared the Guadalajara man was the victim. The Mexican consul at Eagle Pass investigated and declared that he believed the victim of the mob here was a refuge from justice in Mexico traveling under an assumed name. That is the accepted version here.

**MEXICO'S TOTAL POPULATION IS OVER 14,000,000**

Returns Have Been Received From Every State Except Zatecas.

Mexico City, Dec. 30.—One single state in the republic is holding the bureau of statistics from giving out the official census figures showing the entire population of the country. That state is Zatecas. All the others sent in their statements with more or less tardiness, but up to yesterday every one except Zatecas was in.

Zatecas, according to the census of 1900, gave a population of 452,193. Now it is estimated that, if any change is made, there will be an increase of probably 65,000, making a total for this state of 517,193.

However, it may be remarked that the capital of Zatecas in 1900, had 22,366, and this year only gave 25,905, a decrease of 6961. This may account for the fact that as a mining town during the last few years, the works in that district have decreased considerably and the majority of people who earned their living from the mines had to emigrate to some other place.

The total census returns of the republic of Mexico in 1900 showed a total of 13,607,259. Now it is estimated it will be over 14,000,000.
